Republic's Complete Program for Recycling (CPR)!!!

Let Republic help breathe life (CPR) into your company's recycling efforts. Republic Services, Inc., Indiana's largest recycler, now has a complete recycling program flexible enough to fit any business need, big or small. **Republic is making it easy to be GREEN!!!**

No longer are you restricted to recycling just paper. Now **you can recycle so much more**. We take all grades of fiber, such as **office paper, books, phone books, cardboard plus plastic drinking bottles, aluminum and steel beverage/food cans!** HOW GREAT IS THAT?

Below are summaries of the 3 programs we have tailored to service a variety of different companies.

Large Volume Producers - Minimum of 1000 lbs per pickup to qualify

- We provide an 8 cubic yard container in which you can place all of your recyclable materials. Throw them in all together. You don't have to worry about sorting.
- There is a \$49 per month per can service charge for qualified producers..
- You get paid for your recyclables based on volume generated!
- We schedule your pick up on a bi-weekly basis.
- See attachments for more information on this program.

Small Volume Producers – Office Paper Recycling Program

- We provide a 96-gallon cart for your Office Paper.
- We schedule your pick up on a bi-weekly basis.
- We charge a \$15.00 per month per cart fee for this service.
- See attachments for more information on this program.

Small Volume Producers – Commingle Recycling Program

- We provide a 96-gallon cart for your Commingled Recyclables.
- We schedule your pick up on a bi-weekly basis.
- We charge a \$15.00 per month per cart fee for this service.
- See attachments for more information on this program.

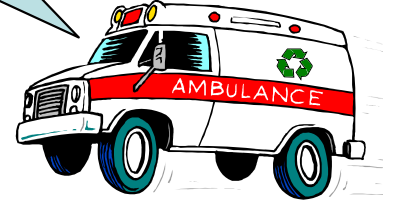

All you have to do is contact Republic Services to see if you qualify as a large or small volume producer. We will ask you a few questions such as number of employees, types of recyclables, volumes you anticipate, etc. Once we have this info, we will review and process the data to see which program may fit you best.

To sign up for this **Complete Program for Recycling (CPR)** contact Dana Bishop at (317) 917-7319 or to receive more information about other programs and equipment please contact us at

Let us breathe life into your company's recycling effort with Republic's CPR

Large Volume Recycling Program of 1000 lbs per Pick up

As a large volume producer, you no longer separate containers for different types of materials. **You can now recycle all office paper, newspaper, phone books and cardboard** along with **plastic drinking bottles, aluminum and steel beverage/food cans ALL IN THE SAME** recycling container!! No sorting or dividing. **How easy is that?**

WE ACCEPT ALL OF THESE MATERIALS IN OUR LARGE VOLUME PROGRAM:

- Newspaper
- Junk Mail
- Fax and Copy Paper
- Cardboard
- Magazines
- Envelopes
- Color Paper
- Plastic Drinking Bottles
- Catalogs
- Folders
- Phone Books
- Aluminum & Steel Cans

If you Qualify for this program

- We provide an 8 cubic yard container in which you place all of your recyclable materials.
- There is a \$49 per month per can service charge for qualified producers.
- You get paid for your recyclables based on volume generated!

Your **rebate** is based on the following monthly scale:

0--4.99 tons = Rebate level 1

5--9.99 tons = Rebate level 2

10 or more tons = Rebate level 3

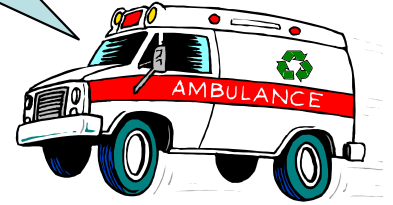

(rebates subject commodities market pricing and can change)

CPR - Small Volume Commingle Recycling

Commingle is the mixing of Plastic, Aluminum and Steel Cans along with other types of material

The Commingle recycling program is very simple. We will provide your company with as many 96-Gallon two wheel carts as needed and service them on a bi-weekly program (if you feel bi-weekly service is not enough, we will work with you). Each cart is approximately 46" tall x 33" deep x 26" wide, with a lid. It is the responsibility of the customer to place the recyclables into the commingle carts that we provide and on the scheduled day of pick up, place them where our driver may have easy access to them. Much like your residential waste or recycling at home, it must be placed outside by 6:00 am. Once collected, Republic will process your material, bale it and shipped it to recycling mills.

Commingled Recyclable Items are as follows

Plastic Bottles, Metal and Aluminum Cans

- #1 & #2 Plastic bottles
(Such as Pop Bottles, Milk Jugs and Laundry detergent type containers).
- Tin & Metal cans, Aluminum Pop Cans

Paper Products for Commingle program

Newspaper, Magazines, Phone Books and small Cardboard boxes as described below are allowed in the commingle program.

(Cardboard Boxes that are suitable for the Commingle program would be small boxes such as the ones used for delivering of office products)

Please

- **NO Glass bottles**
- **All plastic bottles and cans should be empty before placing in container.**

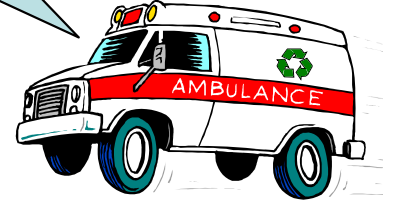

Thank you!

Small Volume Office Paper Recycling Information Sheet

The office paper-recycling program is very simple. We will provide your company with as many 96-Gallon two wheel carts as needed and service them on a bi-weekly program (if you feel bi-weekly service is not enough, we can work with you). Each cart is approximately 46" tall x 33" deep x 26" wide, with a lid. It is the responsibility of the customer to place the office paper into the appropriate carts we provide and on the scheduled day of pick up, place them where our driver may have easy access to them. Much like your residential waste at home, it must be placed outside by 6:00 am. Once collected, Republic will process your material, bale it and ship it to recycling mills.

The following are examples of different types of paper you may place in the recycling containers.

Copy/Fax paper
Letterhead
Legal pad papers
Loose-leaf pages
Color sheets

Computer print outs
Accounting ledgers
Calculator tape
Cash register tape
Time cards

Letters
Pamphlets
Brochures
Advertisements
Scratch paper

Envelopes:

White
Color
With plastic window
Without plastic windows

Folders:

Manila
Color
Poster board

Miscellaneous

Books with glue binding
NCR invoices
Carbonless forms

Paper clips, rubber bands and staples do not have to be removed!
Please tear security sensitive papers as appropriate.

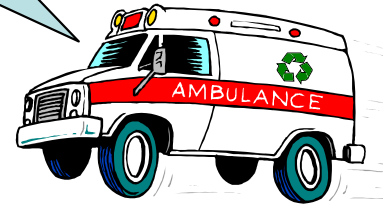

Please note: A mixture of the above items is considered file stock or sorted office waste. It is our lowest grade of paper that we collect outside of newspaper and magazines. If other items, such as phone books, newspapers, and magazines, are added to the mixture the load may be considered undesirable and may be harder to recycle. If your recycling container contains trash, our driver is instructed to leave it. Please make sure that only paper is placed in this container.

All Plastic components, including lids, base and wheels are produced from 100% recyclable material. The Blue or Green cart, classified as ½ a yard or 96-gallons, is used for Office Paper and typically holds approximately 150 pounds of loose paper. On an average, one full cart of Office Paper is equivalent to saving, one mature tree from being cut down. The Gray cart, which is 65 gal., is used for the Commingle program and will typically hold 60 pounds of mixed material depending on the percentage of the mix.

96 – Gallon Cart
