

# A DREAM COME TRUE

On September 23, 2008, more than 300 volunteers from the Colts, National Starch, Keep Indianapolis Beautiful and the community teamed up with KABOOM! to build a dream playground for students at the Daniel Webster Family Academy (IPS #46). In just one day, these individuals transformed an empty plot of land into a fun and safe play space for hundreds of area youth.

Thank you for helping us continue to "share the heart behind the horseshoe" in our community!

The Colts would like to extend a special thank you to their corporate partners who helped make this build possible:
